The following is an examiner's statement of reasons for allowance:

Claim 1 recites an antenna comprising a antenna comprising a feeding pin, an upper radiating patch connected to the feeding pin, having a first upper patch portion and a second upper patch portion which receive power supply from the feeding pin and resonate at different frequency bands, a side radiating patch receiving power supply from the feeding pin, extending along the side of the upper radiating patch and vertical apart from the upper radiating patch by certain distance, and a short pin contacted with the upper radiating patch at one end, and grounded at the other end.

None of the prior art shows or suggests this antenna.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
